Culp, Inc.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(Unaudited)

1. Basis of Presentation

The accompanying unaudited consolidated financial statements of Culp, Inc. and subsidiaries (the “company”) include all adjustments, which are, in the opinion of management, necessary for fair presentation of the results of operations and financial position. All of these adjustments are of a normal recurring nature. Results of operations for interim periods may not be indicative of future results. The unaudited consolidated financial statements should be read in conjunction with the audited consolidated financial statements, which are included in the company’s annual report on Form 10-K filed with the Securities and Exchange Commission on July 17, 2015 for the fiscal year ended May 3, 2015.

The company’s three months ended August 2, 2015 and August 3, 2014, represent 13 and 14 week periods, respectively.

2. Significant Accounting Policies

As of August 2, 2015, there were no changes in the nature of our significant accounting policies or the application of those policies from those reported in our annual report on Form 10-K for the year then ended May 3, 2015.

Recently Adopted Accounting Pronouncements

None

Recently Issued Accounting Pronouncements

In June 2014, the Financial Accounting Standards Board (“FASB”) amended its authoritative guidance on accounting for certain share-based payment awards. The amended guidance requires that share-based compensation awards with terms of a performance target that affects vesting, and that could be achieved after the requisite service period, be treated as a performance condition. As such, the performance target should not be reflected in estimating the grant-date fair value of the award and compensation cost should be recognized in the period in which it becomes probable that the performance target will be achieved. The guidance will be effective in our fiscal 2017 first quarter. The guidance will permit an entity to apply the amendments in the update either (a) prospectively to all awards granted or modified after the effective date or (b) retrospectively to all awards with performance targets that are outstanding as of the beginning of the earliest annual period presented in the consolidated financial statements and to all new or modified awards thereafter. Currently, we do not have any share-based payment awards with terms of a performance target that affects vesting and could be achieved after the requisite service period. We are currently assessing the impact that the guidance will have on our consolidated financial statements.

In May 2014, the FASB issued ASU No. 2014-09, which amends ASC Topic 606, *Revenue from Contracts with Customers*. The amendments in this ASU are intended to enhance the comparability of revenue recognition practices and will be applied to all contracts with customers. Improved disclosures related to the nature, amount, timing, and uncertainty of revenue that is recognized are requirements under the amended guidance. In April 2015, the FASB issued ASU 2015-24, *Revenue from Contracts with Customers: Deferral of the Effective Date* which proposed a deferral of the effective date by one year, and on July 7, 2015, the FASB decided to delay the effective date by one year. The deferral results in the new revenue standard being effective for fiscal years, and interim periods within those fiscal years, beginning after December 15, 2017. We are therefore required to apply the new revenue guidance in our fiscal 2019 interim and annual financial statements. This ASU can be adopted either retrospectively or as a cumulative-effect adjustment as of the date of adoption. We are currently assessing the impact that this guidance will have on our consolidated financial statements.

Culp, Inc.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(Unaudited)

In July 2015, the FASB issued ASU No. 2015-11, *Simplifying the Measurement of Inventory*, which changed the measurement principle for inventory from the lower of cost or market to lower of cost and net realizable value. This ASU is effective for fiscal years and interim periods within those fiscal years, beginning after December 15, 2016. We are therefore required to apply this guidance in our fiscal 2018 interim and annual financial statements. We are currently assessing the impact that this guidance will have on our consolidated financial statements.

3. Stock-Based Compensation

Incentive Stock Option Awards

We did not grant any incentive stock option awards through the first quarter of fiscal 2016.

At August 2, 2015, options to purchase 110,100 shares of common stock were outstanding and exercisable, had a weighted average exercise price of \$7.75 per share, and a weighted average contractual term of 2.2 years. At August 2, 2015, the aggregate intrinsic value for options outstanding and exercisable was \$2.5 million.

The aggregate intrinsic value for options exercised for the three months ending August 2, 2015 was \$814,000. No options were exercised during the three months ending August 3, 2014.

At August 2, 2015, there were no unvested incentive stock option awards. Therefore, there was no unrecognized compensation cost related to incentive stock option awards at August 2, 2015.

No compensation expense was recorded on incentive stock options for the three months ended August 2, 2015 and August 3, 2014, respectively.

Common Stock Awards

We did not grant any common stock awards during the first quarter of fiscal 2016.

Time Vested Restricted Stock Awards

We did not grant any time vested restricted stock awards through the first quarter of fiscal 2016.

At August 2, 2015, there were no outstanding and unvested shares of time vested restricted stock. Therefore, there was no unrecognized compensation cost related to time vested restricted stock awards at August 2, 2015.

Culp, Inc.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(Unaudited)

No compensation expense was recorded on time vested restricted stock awards for the three months ended August 2, 2015. We recorded \$4,000 within selling, general, and administrative expense for time vested restricted stock awards for the three month period ending August 3, 2014.

During the three month period ending August 3, 2014, 61,667 shares of time vested restricted stock vested and had a weighted average fair value of \$257,000 or \$4.17 per share.

Performance Based Restricted Stock Units

Fiscal 2016 Grant

On July 15, 2015, certain key members of management were granted performance based restricted stock units which could earn up to 107,554 shares of common stock if certain performance targets are met as defined in the related restricted stock unit agreements. These awards were valued based on the fair market value on the date of grant. The fair value of these awards was \$32.23 per share, which represents the closing price of our common stock on the date of grant. The vesting of these awards is over the requisite service period of three years.

On July 15, 2015, a non-employee was granted performance based restricted stock units which could earn up to 10,364 shares of common stock if certain performance targets are met as defined in the related restricted stock unit agreements. The fair value of this award is measured at the earlier date of when the performance criteria are met or the end of the reporting period. At August 2, 2015, this grant was unvested and was measured at \$30.25 per share, which represents the closing price of the company's common stock at the end of the reporting period. The vesting of these awards is over the requisite service period of three years.

Fiscal 2015 Grant

On June 24, 2014, certain key members of management were granted performance based restricted stock units which could earn up to 102,845 shares of common stock if certain performance targets are met as defined in the related restricted stock unit agreements. These awards were valued based on the fair market value on the date of grant. The fair value of these awards was \$17.70 per share, which represents the closing price of our common stock on the date of grant. The vesting of these awards is over the requisite service period of three years.

On March 3, 2015, a non-employee was granted performance based restricted stock units which could earn up to 28,000 shares of common stock if certain performance targets are met as defined in the related restricted stock unit agreements. The fair value of this award is measured at the earlier date of when the performance criteria are met or the end of the reporting period. At August 2, 2015, this grant was unvested and was measured at \$30.25 per share, which represents the closing price of the company's common stock at the end of the reporting period. The vesting of these awards is over the requisite service period of 16 months and 28 months for performance based restricted stock units which could earn up to 12,000 and 16,000 shares of common stock, respectively.

Culp, Inc.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(Unaudited)

Fiscal 2014 Grant

On June 25, 2013, certain key members of management were granted performance based restricted stock units which could earn up to 72,380 shares of common stock if certain performance targets are met as defined in the related restricted stock unit agreements. These awards were valued based on the fair market value on the date of grant. The fair value of these awards was \$17.12 per share, which represents the closing price of our common stock on the date of grant. The vesting of these awards is over the requisite service period of three years.

Fiscal 2013 Grant

On July 11, 2012, certain key members of management were granted performance based restricted stock units which could earn up to 120,000 shares of common stock if certain performance targets are met as defined in the related restricted stock unit agreements. These awards were valued based on the fair market value on the date of grant. The fair value of these awards was \$10.21 per share, which represents the closing price of our common stock on the date of grant. The vesting of these awards is over the requisite service period of three years.

During the three month period ending August 2, 2015, 115,855 shares of common stock associated with our fiscal 2013 grant vested and had a weighted average fair value of \$1.2 million or \$10.21 per share. As of August 2, 2015, our fiscal 2013 grant was fully vested.

Overall

The company recorded compensation expense of \$265,000 and \$42,000 within selling, general, and administrative expense for performance based restricted stock units for the three month periods ending August 2, 2015 and August 3, 2014, respectively. Compensation cost is recorded based on an assessment each reporting period of the probability if certain performance goals will be met during the vesting period. If performance goals are not probable of occurrence, no compensation cost will be recognized and any recognized compensation cost would be reversed.

As of August 2, 2015, the remaining unrecognized compensation cost related to the performance based restricted stock units was \$2.9 million, which is expected to be recognized over a weighted average vesting period of 2.5 years.

The remaining amortization expense for the next five fiscal years and thereafter follows: FY 2016 - \$56,000; FY 2017 - \$75,000; FY 2018- \$75,000; FY 2019 - \$75,000; FY 2020 - \$75,000 and Thereafter - \$604,000.

The weighted average amortization period for our non-compete agreement is 12.8 years as of August 2, 2015.

Customer Relationships

We recorded our customer relationships at their fair value based on a multi-period excess earnings valuation model. Our customer relationships are amortized on a straight-line basis over its seventeen year useful life.

The gross carrying amount of our customer relationships was \$868,000 at August 2, 2015, August 3, 2014, and May 3, 2015, respectively. Accumulated amortization for our customer relationships was \$115,000, \$64,000, and \$102,000 at August 2, 2015, August 3, 2014, and May 3, 2015, respectively.

Amortization expense for our customer relationships was \$13,000 for the three months ending August 2, 2015 and August 3, 2014. The remaining amortization expense for the next five fiscal years and thereafter follows: FY 2016 - \$38,000; FY 2017 - \$51,000; FY 2018 - \$51,000; FY 2019 - \$51,000; FY 2020 - \$51,000; and Thereafter - \$511,000.

The weighted average amortization period for our customer relationships is 14.8 years as of August 2, 2015.

Cash Surrender Value – Life Insurance

At August 2, 2015 and May 3, 2015 we had one life insurance contract with a death benefit of \$1.4 million. At August 3, 2014, we had two life insurance contracts with death benefits to the respective insured totaling \$3.9 million.

Our cash surrender value – life insurance balances totaling \$339,000, \$640,000 and \$339,000 at August 2, 2015, August 3, 2014, and May 3, 2015, respectively, are collectible upon death of the respective insured.

On May 16, 2014, we entered into an agreement with a former employee and his irrevocable trust (the “Trust”) dated September 7, 1995. As a result of this agreement, a previous split dollar life insurance agreement in which we purchased a policy on the life of this former employee and his spouse, in which we retained ownership of the policy, paid premiums to support the policy, had the right to receive cash surrender value of the policy upon the second to die of the former employee and his spouse, with the Trust receiving the remainder of the policy’s death benefit (\$2.5 million), was terminated. In connection with the termination of the previous split dollar life insurance agreement, we transferred the life insurance policy to the Trust. Also, we received cash proceeds in the amount of the cash surrender value policy totaling \$320,000 during the second quarter of fiscal 2015. This amount was recorded in other current assets on our Consolidated Balance Sheet dated August 3, 2014.

Culp, Inc.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(Unaudited)

After the settlement of the above life insurance agreement, we currently had one life insurance contract with a death benefit of \$1.4 million and a cash surrender value balance of \$320,000. This amount was recorded in other non-current assets on our Consolidated Balance Sheet dated August 3, 2014.

7. Accrued Expenses

A summary of accrued expenses follows:

<i>(dollars in thousands)</i>	August 2, 2015	August 3, 2014	May 3, 2015
Compensation, commissions and related benefits	\$ 4,946	\$ 4,053	\$ 9,081
Interest	81	168	37
Other accrued expenses	2,704	2,144	2,011
	\$ 7,731	\$ 6,365	\$ 11,129

8. Long-Term Debt and Lines of Credit

A summary of long-term debt follows:

<i>(dollars in thousands)</i>	August 2, 2015	August 3, 2014	May 3, 2015
Unsecured senior term notes	\$ 2,200	\$ 4,400	\$ 2,200
Current maturities of long-term debt	(2,200)	(2,200)	(2,200)
Long-term debt, less current maturities of long-term debt	\$ -	\$ 2,200	\$ -

Unsecured Senior Term Notes

We entered into a note agreement dated August 11, 2008 that provided for the issuance of \$11.0 million of unsecured senior term notes with a fixed interest rate of 8.01% and a term of seven years. Principal payments of \$2.2 million per year are due on the notes beginning August 11, 2011. Any principal pre-payments would be assessed a penalty as defined in the agreement. The agreement contains customary financial and other covenants as defined in the agreement.

On August 11, 2015, we paid our one remaining annual payment of \$2.2 million.

Revolving Credit Agreement – United States

As of May 3, 2015, we had an unsecured credit agreement with Wells Fargo Bank, N.A. (“Wells Fargo”) that provided for an unsecured revolving loan commitment of \$10.0 million to be used to finance working capital and general corporate purposes. The amount of borrowings that were outstanding under the credit agreement with Culp Europe at August 3, 2014, noted below decreased the \$10.0 million available. Interest is charged at a rate (applicable interest rate of 1.69%, 1.76%, and 1.78% at August 2, 2015, August 3, 2014, and May 3, 2015, respectively) equal to the one-month LIBOR rate plus a spread based on our ratio of debt to EBITDA as defined in the agreement. The Credit Agreement contained customary financial and other covenants as defined in the agreement and was set to expire on August 31, 2015.

Culp, Inc.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(Unaudited)

Effective July 10, 2015, we amended the Credit Agreement to extend the expiration date to August 31, 2017, and maintain an annual capital expenditure limit of \$12 million.

At August 2, 2015 and May 3, 2015 there was a \$250,000 outstanding letter of credit (all of which related to workers compensation). At August 3, 2014, there was a \$195,000 outstanding letter of credit (all of which related to workers compensation). At August 2, 2015, August 3, 2014, and May 3, 2015, there were no borrowings outstanding under the Credit Agreement.

Revolving Credit Agreement – China

We have an unsecured credit agreement associated with our operations in China that provides for a line of credit of up to 40 million RMB (approximately \$6.4 million USD at August 2, 2015), expiring on February 9, 2016. This agreement has an interest rate determined by the Chinese government. There were no borrowings outstanding under the agreement as of August 2, 2015, August 3, 2014, and May 3, 2015.

Revolving Credit Agreement – Europe

At August 3, 2014, we had EURO denominated borrowings totaling €424,000 (\$569,000 USD) that incurred interest at the EURO LIBOR plus 2%.

In connection with the Wells Fargo credit agreement noted above, the outstanding borrowings totaling \$569,000 at August 3, 2014, decreased the \$10.0 million available under the credit agreement.

At August 2, 2015, no borrowings were outstanding under this agreement, as the outstanding balance was paid in full during the second quarter of fiscal 2015.

Overall

Our loan agreements require, among other things, that we maintain compliance with certain financial covenants. At August 2, 2015, the company was in compliance with these financial covenants.

The fair value of the company's long-term debt is estimated by discounting the future cash flows at rates currently offered to the company for similar debt instruments of comparable maturities. At August 2, 2015, the carrying value of our long-term debt was \$2.2 million and the fair value was \$2.3 million. At August 3, 2014, the carrying value of the company's long-term debt was \$4.4 million and the fair value was \$4.6 million. At May 3, 2015, the carrying value of the company's long-term debt was \$2.2 million and the fair value was \$2.3 million.

9. Fair Value of Financial Instruments

ASC Topic 820 establishes a fair value hierarchy that distinguishes between assumptions based on market data (observable inputs) and the company's assumptions (unobservable inputs). Determining where an asset or liability falls within that hierarchy depends on the lowest level input that is significant to the fair value measurement as a whole. An adjustment to the pricing method used within either level 1 or level 2 inputs could generate a fair value measurement that effectively falls in a lower level in the hierarchy. The hierarchy consists of three broad levels as follows:

Level 1 – Quoted market prices in active markets for identical assets or liabilities;

Level 2 – Inputs other than level 1 inputs that are either directly or indirectly observable, and

Level 3 – Unobservable inputs developed using the company's estimates and assumptions, which reflect those that market participants would use.

Recurring Basis

The following table presents information about assets and liabilities measured at fair value on a recurring basis:

The determination of where an asset or liability falls in the hierarchy requires significant judgment. We evaluate our hierarchy disclosures each quarter based on various factors and it is possible that an asset or liability may be classified differently from quarter to quarter. However, we expect that changes in classifications between different levels will be rare.

Our short-term investments include short-term bond funds and deposit accounts that have a maturity of more than three months, are classified as available-for-sale, and their unrealized gains or losses are included in other comprehensive loss. Our short-term bond funds were recorded at their fair value of \$6.3 million, \$6.3 million and \$10.0 million at August 2, 2015, August 3, 2014, and May 3, 2015, respectively. Our short-term bond funds had an accumulated unrealized loss totaling \$184,000, \$70,000, and \$95,000 at August 2, 2015, August 3, 2014, and May 3, 2015, respectively. At August 2, 2015, August 3, 2014, and May 3, 2015, the fair value of our short-term bond funds approximated its cost basis.

Effective, January 1, 2014, we established a Rabbi Trust to set aside funds for participants of our deferred compensation plan (the "Plan") and enable the participants to credit their contributions to various investment options of the Plan. The investments associated with the Rabbi Trust consist of investments in a money market fund and various mutual funds that are classified as available for sale. Our long-term investments are recorded at its fair value of \$2.9 million, \$1.7 million, and \$2.4 million at August 2, 2015, August 3, 2014, and May 3, 2015, respectively. The fair value of our long-term investments approximates its cost basis.

Payments for interest and income taxes follows:

<i>(dollars in thousands)</i>	Three months ended	
	August 2, 2015	August 3, 2014
Interest	\$ -	\$ -
Net income tax payments	900	959

Interest costs of \$20,000 and \$30,000 for the construction of qualifying fixed assets were capitalized and are being amortized over the related assets' useful lives for the three months ended August 2, 2015 and August 3, 2014, respectively.

11. Net Income Per Share

Basic net income per share is computed using the weighted-average number of shares outstanding during the period. Diluted net income per share uses the weighted-average number of shares outstanding during the period plus the dilutive effect of stock-based compensation calculated using the treasury stock method. Weighted average shares used in the computation of basic and diluted net income per share follows:

<i>(amounts in thousands)</i>	Three months ended	
	August 2, 2015	August 3, 2014
Weighted average common shares outstanding, basic	12,277	12,212
Dilutive effect of stock-based compensation	179	192
Weighted average common shares outstanding, diluted	12,456	12,404

All options to purchase shares of common stock were included in the computation of diluted net income for the three months ended August 2, 2015 and August 3, 2014, as the exercise price of the options was less than the average market price of the common shares.

12. Segment Information

Our operations are classified into two business segments: mattress fabrics and upholstery fabrics. The mattress fabrics segment manufactures, sources, and sells fabrics and mattress covers to bedding manufacturers. The upholstery fabrics segment sources, manufactures, and sells fabrics primarily to residential furniture manufacturers.

We evaluate the operating performance of our segments based upon income from operations before certain unallocated corporate expenses and other non-recurring items. Cost of sales in both segments include costs to manufacture or source our products, including costs such as raw material and finished goods purchases, direct and indirect labor, overhead and incoming freight charges. Unallocated corporate expenses primarily represent compensation and benefits for certain executive officers, all costs related to being a public company, and other miscellaneous expenses. Segment assets include assets used in the operations of each segment and primarily consist of accounts receivable, inventories, and property, plant and equipment. The mattress fabrics segment also includes in segment assets, goodwill, a non-compete agreement, and customer relationships associated with an acquisition.

13. Income Taxes

Effective Income Tax Rate

We recorded income tax expense of \$2.7 million, or 36.5% of income before income tax expense, for the three month period ended August 2, 2015, compared to income tax expense of \$2.1 million or 38.7% of income before income tax expense, for the three month period ended August 3, 2014. Our effective income tax rates for the three month periods ended August 2, 2015 and August 3, 2014, were based upon the estimated effective income tax rate applicable for the full year after giving effect to any significant items related specifically to interim periods. The effective income tax rate can be affected over the fiscal year by the mix and timing of actual earnings from our U.S. operations and foreign sources versus annual projections and changes in foreign currencies in relation to the U.S. dollar.

The income tax expense for the three month period ended August 2, 2015 is different from the amount obtained by applying our statutory rate of 34% to income before income taxes for the following reasons:

- The income tax rate decreased by 6% for taxable income subject to lower statutory income tax rates in foreign jurisdictions (Canada and China) compared with the statutory income tax rate of 34% for the United States.
- The income tax rate increased by 5% to record the income tax effects of the undistributed earnings from our foreign subsidiaries located in Canada and China.
- The income tax rate increased by 3% for an increase in unrecognized tax benefits.
- The income tax rate increased by 0.5% for other miscellaneous items.

Deferred Income Taxes

Valuation Allowance

In accordance with ASC Topic 740, we evaluate our deferred income taxes to determine if a valuation allowance is required. ASC Topic 740 requires that companies assess whether a valuation allowance should be established based on the consideration of all available evidence using a “more likely than not” standard, with significant weight being given to evidence that can be objectively verified. Since the company operates in multiple jurisdictions, we assess the need for a valuation allowance on a jurisdiction-by-jurisdiction basis, taking into account the effects of local tax law. Based on our assessment at August 2, 2015, we recorded a partial valuation allowance of \$926,000, of which \$561,000 pertained to certain U.S. state net operating loss carryforwards and credits and \$365,000 pertained to loss carryforwards associated with our Culp Europe operation located in Poland. Based on our assessment at August 3, 2014, we recorded a partial valuation allowance of \$1.1 million, of which \$666,000 pertained to certain U.S. state net operating loss carryforwards and credits and \$419,000 pertained to loss carryforwards associated with our Culp Europe operation located in Poland. Based on our assessment at May 3, 2015, we recorded a partial valuation allowance of \$922,000, of which \$561,000 pertained to certain U.S. state net operating loss carryforwards and credits and \$361,000 pertained to loss carryforwards associated with our Culp Europe operation located in Poland.

No valuation allowance was recorded against our net deferred tax assets associated with our operations located in China and Canada at August 2, 2015, August 3, 2014, and May 3, 2015, respectively.

The recorded valuation allowance of \$926,000 at August 2, 2015, has no effect on our operations, loan covenant compliance, or the possible realization of certain U.S. state net operating loss carryforwards and credits and our loss carryforwards associated with our Culp Europe operation located in Poland. If it is determined that it is more-likely-than-not that we will realize any of these deferred tax assets, an income tax benefit will be recognized at that time.

Undistributed Earnings

In accordance with ASC Topic 740, we assess whether the undistributed earnings from our foreign subsidiaries will be reinvested indefinitely or eventually distributed to our U.S. parent company. ASC Topic 740 requires that a deferred tax liability should be recorded for undistributed earnings from foreign subsidiaries that will not be reinvested indefinitely. Based on our assessment as of August 2, 2015, it is our intention not to permanently invest our undistributed earnings from our foreign subsidiaries. Also, we assess the recognition of U.S. foreign income tax credits associated with foreign withholding and income tax payments and whether it is more-likely-than-not that our foreign income tax credits will not be realized. If it is determined that any foreign income tax credits need to be recognized or it is more-likely-than-not our foreign income tax credits will not be realized, an adjustment to our provision for income taxes will be recognized at that time.

Culp, Inc.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(Unaudited)

At August 2, 2015, the net deferred tax liability associated with our undistributed earnings from our foreign subsidiaries totaled \$2.0 million, which included U.S. income and foreign withholding taxes totaling \$33.8 million, offset by U.S. foreign income tax credits of \$31.8 million. At August 3, 2014, the net deferred tax liability associated with our undistributed earnings from our foreign subsidiaries totaled \$2.1 million, which included U.S. income and foreign withholding taxes totaling \$29.4 million, offset by U.S. foreign income tax credits of \$27.3 million. At May 3, 2015, the net deferred tax liability associated with our undistributed earnings from our foreign subsidiaries totaled \$1.7 million, which included U.S. income and foreign withholding taxes totaling \$32.4 million, offset by U.S. foreign income tax credits of \$30.7 million.

We had accumulated earnings from our foreign subsidiaries totaling \$88.6 million, \$75.8 million, and \$85.2 million at August 2, 2015, August 3, 2014, and May 3, 2015, respectively.

Overall

At August 2, 2015, the current deferred tax asset of \$7.0 million represents \$6.5 million and \$502,000 from our operations located in the U.S. and China, respectively. At August 2, 2015, the non-current deferred tax asset of \$412,000 pertains to our operations located in China. At August 2, 2015, the non-current deferred tax liability of \$4.1 million represents \$3.0 million and \$1.1 million from our operations located in the U.S. and Canada, respectively.

At August 3, 2014, the non-current deferred tax liability of \$1.0 million pertains to our operations located in Canada.

At May 3, 2015, the current deferred tax asset of \$4.8 million represents \$4.4 million and \$421,000 from our operations located in the U.S. and China, respectively. At May 3, 2015, the non-current deferred tax asset of \$447,000 pertained to our operations located in China. At May 3, 2015, the non-current deferred tax liability of \$1.1 million represents \$896,000 and \$154,000 from our operations located in Canada and the U.S., respectively.

Uncertainty In Income Taxes

At August 2, 2015, we had a \$14.2 million total gross unrecognized tax benefit, of which \$3.6 million represents the amount of gross unrecognized tax benefits that, if recognized, would favorably affect the income tax rate in future periods. At August 3, 2014, we had a \$14.0 million total gross unrecognized tax benefit, of which \$4.0 million represents the amount of gross unrecognized tax benefits that, if recognized, would favorably affect the income tax rate in future periods. At May 3, 2015, we had a \$14.1 million total gross unrecognized tax benefit, of which \$3.8 million represents the amount of gross unrecognized tax benefits that, if recognized, would favorably affect the income tax rate in future periods.

At August 2, 2015, we had a \$14.2 million total gross unrecognized tax benefit, of which \$10.6 million and \$3.6 million were classified as net non-current deferred income taxes and income taxes payable – long-term, respectively, in the accompanying consolidated balance sheets. At August 3, 2014, we had a \$14.0 million total gross unrecognized tax benefit, of which \$10.0 million and \$4.0 million were classified as net non-current deferred income taxes and income taxes payable – long-term, respectively, in the accompanying consolidated balance sheets. At May 3, 2015, we had \$14.1 million of total gross unrecognized tax benefit, of which \$10.3 million and \$3.8 million were classified as net non-current deferred income taxes and income taxes payable – long-term, respectively, in the accompanying consolidated balance sheets.

We estimate that the amount of gross unrecognized tax benefits will increase by approximately \$867,000 for fiscal 2016. This increase primarily relates to double taxation under applicable tax treaties with foreign tax jurisdictions.

14. Statutory Reserves

Our subsidiaries located in China are required to transfer 10% of their net income, as determined in accordance with the People's Republic of China (PRC) accounting rules and regulations, to a statutory surplus reserve fund until such reserve balance reaches 50% of the company's registered capital.

The transfer to this reserve must be made before distributions of any dividend to shareholders. As of August 2, 2015, the company's statutory surplus reserve was \$5.0 million, representing 10% of accumulated earnings and profits determined in accordance with PRC accounting rules and regulations. The surplus reserve fund is non-distributable other than during liquidation and can be used to fund previous years' losses, if any, and may be utilized for business expansion or converted into share capital by issuing new shares to existing shareholders in proportion to their shareholding or by increasing the par value of the shares currently held by them provided that the remaining reserve balance after such issue is not less than 25% of the registered capital.

Our subsidiaries located in China can transfer funds to the parent company with the exception of the statutory surplus reserve of \$5.0 million to assist with debt repayment, capital expenditures, and other expenses of the company's business.

15. Commitments and Contingencies

Litigation

The company is involved in legal proceedings and claims which have arisen in the ordinary course of business. Management has determined that it is not reasonably possible that these actions, when ultimately concluded and settled, will have a material adverse effect upon the financial position, results of operations, or cash flows of the company.

Purchase Commitments

At August 2, 2015, August 3, 2014, and May 3, 2015, we had open purchase commitments to acquire equipment for our mattress fabrics segment totaling \$2.6 million, \$3.5 million, and \$2.3 million, respectively.

16. Common Stock Repurchase Program

On February 25, 2014, we announced that our board of directors approved an authorization for us to acquire up to \$5.0 million of our common stock. Under the common stock repurchase program, shares may be purchased from time to time in open market transactions, block trades, through plans established under the Securities Exchange Act Rule 10b5-1, or otherwise. The amount of shares purchased and the timing of such purchases will be based on working capital requirements, market and general business conditions, and other factors including alternative investment opportunities.

During fiscal 2015, we purchased 43,014 shares of our common stock at a cost of \$745,000, all of which were purchased in the first and second quarters. During the three months ended August 2, 2015, we did not purchase any shares of our common stock.

At August 2, 2015, we had \$4.3 million available for additional repurchases of our common stock.

17. Dividend Program

On June 18, 2015, we announced that our board of directors approved the payment of a special cash dividend of \$0.40 per share and a regular cash dividend payment of \$0.06 per share. These dividends were paid on July 15, 2015, to shareholders of record as of July 1, 2015. During the first quarter of fiscal 2016, dividend payments totaled \$5.7 million, of which \$5.0 million represented the special cash dividend of \$0.40 per share, and \$740,000 represented the quarterly dividend payment of \$0.06 per share.

During the first quarter of fiscal 2015, dividend payments totaled \$5.5 million, of which \$4.9 million represented a special cash dividend payment of \$0.40 per share, and \$611,000 represented a quarterly dividend payment of \$0.05 per share.

On September 2, 2015, we announced that our board of directors approved the payment of a quarterly cash dividend of \$0.06 per share. The payment will be made on October 15, 2015 to shareholders of record as of October 1, 2015.

Future dividend payments are subject to board approval and may be adjusted at the board's discretion as business needs or market conditions change.

CAUTIONARY STATEMENT CONCERNING FORWARD-LOOKING INFORMATION

This report and the exhibits attached hereto contain “forward-looking statements” within the meaning of the federal securities laws, including the Private Securities Litigation Reform Act of 1995 (Section 27A of the Securities Act of 1933 and Section 21E of the Securities and Exchange Act of 1934). Such statements are inherently subject to risks and uncertainties. Further, forward looking statements are intended to speak only as of the date on which they are made, and we disclaim any duty to update such statements. Forward-looking statements are statements that include projections, expectations or beliefs about future events or results or otherwise are not statements of historical fact. Such statements are often but not always characterized by qualifying words such as “expect,” “believe,” “estimate,” “plan” and “project” and their derivatives, and include but are not limited to statements about expectations for our future operations, production levels, sales, profit margins, profitability, operating income, capital expenditures, income taxes, SG&A or other expenses, pre-tax income, earnings, cash flow, and other performance or liquidity measures, as well as any statements regarding future economic or industry trends or future developments. Factors that could influence the matters discussed in such statements include the level of housing starts and sales of existing homes, consumer confidence, trends in disposable income, and general economic conditions. Decreases in these economic indicators could have a negative effect on our business and prospects. Likewise, increases in interest rates, particularly home mortgage rates, and increases in consumer debt or the general rate of inflation, could affect us adversely. Changes in consumer tastes or preferences toward products not produced by us could erode demand for our products. Changes in the value of the U.S. dollar versus other currencies can affect our financial results because a significant portion of our operations are located outside the United States. Strengthening of the U.S. dollar against other currencies could make our products less competitive on the basis of price in markets outside the United States, and strengthening of currencies in Canada and China can have a negative impact on our sales of products produced in those places. Also, economic and political instability in international areas could affect our operations or sources of goods in those areas, as well as demand for our products in international markets. Further information about these factors, as well as other factors that could affect our future operations or financial results and the matters discussed in forward-looking statements, is included in Item 1A “Risk Factors” section in our Form 10-K filed with the Securities and Exchange Commission on July 17, 2015, for the fiscal year ended May 3, 2015.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

The following analysis of financial condition and results of operations should be read in conjunction with the Financial Statements and Notes and other exhibits included elsewhere in this report.

General

Our fiscal year is the 52 or 53 week period ending on the Sunday closest to April 30. The three months ended August 2, 2015, and August 3, 2014, represent 13 and 14 week periods, respectively. Our operations are classified into two business segments: mattress fabrics and upholstery fabrics. The mattress fabrics segment manufactures, sources and sells fabrics and mattress covers to bedding manufacturers. The upholstery fabrics segment sources, manufactures, and sells fabrics primarily to residential furniture manufacturers.

We evaluate the operating performance of our segments based upon income from operations before certain unallocated corporate expenses and other non-recurring items. Cost of sales in both segments include costs to manufacture or source our products, including raw material and finished goods purchases, direct and indirect labor, overhead and incoming freight charges. Unallocated corporate expenses represent primarily compensation and benefits for certain executive officers, all costs related to being a public company, and other miscellaneous expenses.

Executive Summary

Results of Operations

(dollars in thousands)	Three Months Ended		% Change
	August 2, 2015	August 3, 2014	
Net sales	\$ 80,185	\$ 76,060	5.4%

Gross profit margin	20.2%	16.7%	21.0%
SG&A expenses	8,741	7,419	17.8%
Income from operations	7,461	5,296	40.9%
Operating margin	9.3%	7.0%	32.9%
Income before income taxes	7,408	5,459	35.7%
Income taxes	2,707	2,115	28.0%
Net income	4,701	3,344	40.6%

Net Sales

Overall, our total net sales increased 5.4%, even with one less week of operations in the first quarter of fiscal 2016 compared with the same period a year ago. These results reflect favorable demand trends and positive customer response to our designs and diverse product offering. We have continued to execute our strategy with a focus on design creativity, product innovation, and customer service. This strategic focus has driven our sales performance in both our business segments, and we intend to follow this same strategy in fiscal 2016. Importantly, our scalable and flexible manufacturing platform supports our ability to compete in a fashion-driven business that is always changing.

Income Before Income Taxes

The increase in income before income taxes primarily reflects the increases in net sales noted above and the significant improvement in our mattress fabric segment's operating results in the first quarter of fiscal 2016 compared with the same period a year ago. Contributing to the improvement in our mattress fabrics segment's operating results were the benefits of our \$9.5 million capital expansion plan that increased our production capacity, added finishing capabilities, and improved our overall efficiency and throughput. We also benefited from lower input costs in both our business segments. Partially offsetting the improvement in gross profit was the increase in SG&A expenses due primarily to the increase in higher incentive compensation expense reflecting stronger financial results in relation to pre-established performance targets, the increase in net sales, and the increase in the provision for bad debts.

See the Segment Analysis section located in the Results of Operations for further details.

Liquidity

At August 2, 2015, our cash and cash equivalents and short-term investments totaled \$32.3 million and exceeded our total debt (all of which is classified in current maturities of long-term debt) of \$2.2 million. Our total debt of \$2.2 million represented our last annual principal payment on our unsecured term notes and was paid after the end of our first quarter on August 11, 2015. Currently, we do not have any long-term debt or balances due on our revolving credit lines.

As of the end of the first quarter of fiscal 2016, our cash and cash equivalents and short-term investments decreased from \$39.7 million at May 3, 2015. This decrease was primarily due to dividend payments of \$5.7 million, capital expenditures associated with our mattress fabric segment of \$3.3 million, and \$478,000 on long-term investment purchases associated with our Rabbi Trust that is partially funding our deferred compensation plan. This spending was partially offset by net cash provided by operating activities of \$1.1 million.

Our net cash provided by operating activities was \$1.1 million for the first quarter of fiscal 2016, a decrease of \$3.0 million compared with \$4.1 million for the first quarter of fiscal 2015. This decrease reflects an increase in inventory purchases due to increased business volume and expected demand trends and higher bonus payments related to the prior year that reflected stronger financial results in relation to pre-established performance targets for fiscal 2015 compared to fiscal 2014. This spending was partially offset by cash flow from earnings and improved cash collections from customers in the first quarter of fiscal 2016 compared with the first quarter of fiscal 2015.

Dividend Program

On June 18, 2015, we announced that our board of directors approved the payment of a special cash dividend of \$0.40 per share and a regular cash dividend payment of \$0.06 per share. These dividends were paid on July 15, 2015, to shareholders of record as of July 1, 2015. During the first quarter of fiscal 2016, dividend payments totaled \$5.7 million, of which \$5.0 million represented the special cash dividend of \$0.40 per share, and \$740,000 represented the quarterly dividend payment of \$0.06 per share.

During the first quarter of fiscal 2015, dividend payments totaled \$5.5 million, of which \$4.9 million represented a special cash dividend payment of \$0.40 per share, and \$611,000 represented a quarterly dividend payment of \$0.05 per share.

On September 2, 2015, we announced that our board of directors approved the payment of a quarterly cash dividend of \$0.06 per share. The payment will be made on October 15, 2015 to shareholders of record as of October 1, 2015.

Future dividend payments are subject to board approval and may be adjusted at the board's discretion as business needs or market conditions change.

Common Stock Repurchase Program

On February 25, 2014, we announced that our board of directors approved an authorization for us to acquire up to \$5.0 million of our common stock. Under the common stock repurchase program, shares may be purchased from time to time in open market transactions, block trades, through plans established under the Securities Exchange Act Rule 10b5-1, or otherwise. The amount of shares purchased and the timing of such purchases will be based on working capital requirements, market and general business conditions, and other factors including alternative investment opportunities.

No shares were purchased during the first quarter of fiscal 2016.

At August 2, 2015, we had \$4.3 million available for additional repurchases of our common stock.

Segment Analysis

Mattress Fabrics Segment

(dollars in thousands)	Three Months Ended		% Change
	August 2, 2015	August 3, 2014	
Net sales	\$ 47,808	\$ 42,822	11.6%
Gross profit	9,925	7,202	37.8%
Gross profit margin	20.8%	16.8%	23.8%
SG&A expenses	2,923	2,574	13.6%
Income from operations	7,003	4,629	51.3%
Operating margin	14.6%	10.8%	35.2%

Net Sales

The increase in our mattress fabric net sales reflect our ability to capitalize on the growing consumer demand for more fashionable and decorative mattress fabrics and more favorable demand trends through the busy summer selling season.

Design and product innovation have continued to be top strategic priorities that have allowed us to keep up with the latest fashion trends and meet customer style preferences. We have expanded our design team and invested in the latest technical software and website development to support and strengthen our brand. As a result, we have been able to offer a diverse product line across all price points. Our scalable manufacturing platform and reactive capacity supports our ability to deliver a diverse product mix in line with changing consumer demand.

Gross Profit and Operating Income

The increase in gross profit and operating income for the mattress fabric segment reflected the increase in net sales noted above and the operational improvement that resulted largely from our \$9.5 million capital expansion plan. The benefits of this expansion plan included increased production capacity and finishing capabilities, and improved overall efficiency and throughput. We also benefited from lower input costs in the first quarter of fiscal 2016 compared to the same period a year ago.

We have substantially completed the capital expansion at our two plant facilities located in North Carolina, and we are now focused on expanding our operations and installing additional equipment at our facility located in Canada during fiscal 2016.

Another factor contributing to the increase in profit was an increased contribution from our mattress cover business, which further supports our diversification strategy.

Partially offsetting the improvement in gross profit was an increase in SG&A expenses, due primarily to the increase in higher incentive compensation expense reflecting stronger financial results in relation to pre-established performance targets and the increase in net sales.

Segment assets

Segment assets consist of accounts receivable, inventory, property, plant and equipment, goodwill, a non-compete agreement and customer relationships associated with an acquisition.

(dollars in thousands)	August 2, 2015	August 3, 2014	May 3, 2015
Accounts receivable and inventory	\$ 42,530	\$ 37,970	\$ 41,328
Property, plant & equipment	35,116	29,604	33,773
Goodwill	11,462	11,462	11,462
Non-compete agreement	960	1,035	979
Customer Relationships	753	804	766

Accounts Receivable & Inventory

As of August 2, 2015, accounts receivable and inventory increased \$4.6 million or 12%, compared with August 3, 2014. This increase is primarily due to the increase in net sales for the first quarter of fiscal 2016 compared to the first quarter of fiscal 2015. Net sales for the first quarter of fiscal 2016 were \$47.8 million compared to \$42.8 million for the first quarter of fiscal 2015.

As of August 2, 2015, accounts receivable and inventory increased \$1.2 million, or 3%, compared with May 3, 2015. This increase is primarily due to a \$2.3 million increase in this segment's inventory related to higher business volume and expected demand trends as of the end of the first quarter. The increase in this segment's inventory was partially offset by a decrease in accounts receivable of \$1.1 million due to more mattress fabric customers taking advantage of sales discounts in the first quarter of fiscal 2016 compared to the same period a year ago.

Property, Plant & Equipment

The \$35.1 million at August 2, 2015, represents property, plant and equipment of \$23.6 million and \$11.5 million located in the U.S. and Canada, respectively. The \$29.6 million at August 3, 2014, represents property, plant, and equipment of \$21.2 million and \$8.4 million located in the U.S. and Canada, respectively. The \$33.8 million at May 3, 2015, represents property, plant, and equipment of \$23.8 million and \$10.0 million located in the U.S. and Canada, respectively.

As of August 2, 2015, property, plant, and equipment increased \$5.5 million, or 19%, compared with August 3, 2014. This increase is primarily due to the capital expansion plan noted above, partially offset by depreciation expense.

As of August 2, 2015, property, plant, and equipment increased \$1.3 million, or 4%, compared with May 3, 2015. This increase is due to capital expenditures of \$2.7 million that primarily relate to the purchases and installation of machinery and equipment associated with our operation located in Canada, partially offset by depreciation expense of \$1.4 million in the first quarter of fiscal 2016.

Upholstery Fabrics Segment

Net Sales

(dollars in thousands)	Three Months Ended				% Change
	August 2, 2015		August 3, 2014		
Non U.S. Produced	\$ 29,954	93%	\$ 30,457	92%	(1.7)%
U.S. Produced	2,423	7%	2,781	8%	(12.9)%
Total	\$ 32,377	100%	\$ 33,238	100%	(2.6)%

Our upholstery fabric net sales for the first quarter were in line with expectations. We have continued to execute our strategy with a focus on design and product innovation, and we are pursuing marketing strategies to diversify our customer base and expand our geographic reach. These efforts have driven our sales and operating performance with existing and new customers, enhanced our product mix with favorable results, and increased our net sales with the hospitality and lifestyle retail markets.

Our 100% owned China platform supports our marketing efforts with the manufacturing flexibility to adapt to changing furniture market trends and consumer style preferences. This platform has allowed us to more effectively reach new customers, with the ability to offer a diverse product mix of fabric styles and price points.

Our net sales were affected by one less week of operations in the first quarter of fiscal 2016 compared to the same period a year ago and the closure of our finished goods warehouse and distribution facility located in Poznan, Poland in the third quarter of fiscal 2015.

Gross Profit, Selling, General & Administrative Expenses, and Operating Income

(dollars in thousands)	Three Months Ended			% Change
	August 2, 2015		August 3, 2014	
Gross profit	\$ 6,277		\$ 5,513	13.9%
Gross profit margin	19.4%		16.6%	16.9%
SG&A expenses	3,595		3,452	4.1%
Income from operations	2,681		2,060	30.1%
Operating margin	8.3%		6.2%	33.9%

The increase in gross profit and income from operations reflected our enhanced product mix noted above and a more stable cost environment in China.

Partially offsetting the improvement in gross profit was an increase in SG&A expenses due primarily to higher incentive compensation expense reflecting stronger financial results in relation to pre-established performance targets and an increase in the provision for bad debts in the first quarter of fiscal 2016 compared to the same period a year ago.

Culp Europe

As previously announced at the end of the third quarter of fiscal 2015, we closed our finished goods warehouse and distribution facility located in Poznan, Poland, primarily as a result of ongoing economic weakness in Europe. We remain very interested in developing business in Europe, and we are assessing the best strategy for selling upholstery fabric into this market as business conditions improve.

Segment Assets

Segment assets consist of accounts receivable, inventory, and property, plant, and equipment.

(dollars in thousands)	August 2, 2015	August 3, 2014	May 3, 2015
Accounts receivable and inventory	\$ 29,721	\$ 27,957	\$ 29,905
Property, plant & equipment	1,518	1,580	1,467

Accounts Receivable & Inventory

As of August 2, 2015, accounts receivable and inventory for this segment increased \$1.8 million or 6% compared with August 3, 2014. This increase is primarily due to an increase in this segment's inventory due to increased business volume and expected demand trends as of the end of the first quarter.

As of August 2, 2015, accounts receivable and inventory remained relatively flat compared to May 3, 2015. However, this segment's inventory increased \$1.7 million or 10% during the first quarter of fiscal 2016. This increase is primarily due to an increase in this segment's inventory as a result of expected demand trends as of the end of the first quarter. The increase in inventory was offset by a decrease in accounts receivable of \$1.9 million or 16%. This decrease was primarily due to improved cash collections in the first quarter of fiscal 2016 compared to the first quarter of fiscal 2015.

Property, Plant & Equipment

The \$1.5 million at August 2, 2015, represents property, plant, and equipment of \$818,000 and \$700,000 located in the U.S. and China, respectively. The \$1.6 million at August 3, 2014, represents property, plant, and equipment located in the U.S. of \$911,000, located in China of \$627,000, and located in Poland of \$42,000. The \$1.5 million at May 3, 2015, represents property, plant, and equipment of \$848,000 and \$619,000 located in the U.S. and China, respectively.

Other Income Statement Categories

Selling, General and Administrative Expenses

SG&A expenses for the company as a whole were \$8.7 million in the first quarter of fiscal 2016 compared to \$7.4 million in the first quarter of fiscal 2015. This increase is primarily due to the increase in higher incentive compensation expense reflecting stronger financial results in relation to pre-established performance targets, the increase in net sales, and the increase in the provision for bad debts.

As a percent of net sales, SG&A expenses were 10.9% in the first quarter of fiscal 2016 compared with 9.8% in the first quarter of fiscal 2015.

Interest Expense

Interest expense for the first quarter of fiscal 2016 was \$24,000 compared to \$68,000 for the first quarter of fiscal 2015.

This trend primarily reflects lower outstanding balances of long-term debt. Also, interest expense was reduced by interest costs of 20,000 and \$30,000 for capital expenditures associated with our mattress fabrics segment that were capitalized during the first quarter of fiscal 2016 and 2015, respectively. These interest costs will be depreciated over the related assets' useful lives.

Interest Income

Interest income was \$66,000 for the first quarter of fiscal 2016 compared to \$142,000 for the first quarter of fiscal 2015.

This decrease reflects higher cash and cash equivalent and short-term investment balances held in U.S. dollar denominated account balances during the first quarter of fiscal 2016 compared to the same period a year ago. Cash and cash equivalents and short-term investment balances held in U.S. dollar denominated account balances earn lower interest rates as compared to our cash and cash equivalents and short-term investment balances denominated in the local currency of our foreign subsidiaries. Although interest income is lower as compared to last year, the strategy of substantially reducing the amount of cash held in Chinese Yuan Renminbi has mitigated our foreign currency exposure in China.

Other Expense (Income)

Other expense for the first quarter of fiscal 2016 was \$95,000 compared to other income of \$89,000 during the first quarter of fiscal 2015. This trend is primarily due to less favorable foreign currency exchange rate fluctuations in relation to the U.S. dollar regarding our operations located in China in the first quarter of fiscal 2016 compared with the same period a year ago and our strategy of transferring the amount of cash held in Chinese Yuan Renminbi to U.S. dollars noted above. Our operations located in China reported a foreign exchange gain of \$22,000 in the first quarter of fiscal 2016 compared to \$199,000 for the same period a year ago.

We mitigate the effects of foreign currency exchange rate fluctuations associated with our subsidiaries domiciled in Canada and China through maintenance of a natural hedge by keeping a balance of assets and liabilities denominated in foreign currencies other than the U.S. dollar. Although we will continue to try and maintain this natural hedge, there is no assurance that we will be able to continue to do so in future reporting periods.

Income Taxes

Effective Income Tax Rate

We recorded income tax expense of \$2.7 million, or 36.5% of income before income tax expense, for the three month period ended August 2, 2015, compared to income tax expense of \$2.1 million or 38.7% of income before income tax expense, for the three month period ended August 3, 2014. Our effective income tax rates for the three month periods ended August 2, 2015 and August 3, 2014, were based upon the estimated effective income tax rate applicable for the full year after giving effect to any significant items related specifically to interim periods. The effective income tax rate can be affected over the fiscal year by the mix and timing of actual earnings from our U.S. operations and foreign sources versus annual projections and changes in foreign currencies in relation to the U.S. dollar.

The income tax expense for the three month period ended August 2, 2015 is different from the amount obtained by applying our statutory rate of 34% to income before income taxes for the following reasons:

- The income tax rate decreased by 6% for taxable income subject to lower statutory income tax rates in foreign jurisdictions (Canada and China) compared with the statutory income tax rate of 34% for the United States.
- The income tax rate increased by 5% to record the income tax effects of the undistributed earnings from our foreign subsidiaries located in Canada and China.
- The income tax rate increased by 3% for an increase in unrecognized tax benefits.
- The income tax rate increased by 0.5% for other miscellaneous items.

The income tax expense for three month period ended August 3, 2014 is different from the amount obtained by applying our statutory rate of 34% to income before income taxes for the following reasons:

- The income tax rate decreased by 6% for taxable income subject to lower statutory income tax rates in foreign jurisdictions (Canada and China) compared with the statutory income tax rate of 34% for the United States.
- The income tax rate increased 5% for an increase in unrecognized tax benefits.
- The income tax rate increased by 3% to record the income tax effects of the undistributed earnings from our foreign subsidiaries located in Canada and China.
- The income tax rate was increased by 2.7% for other miscellaneous items.

Valuation Allowance

In accordance with ASC Topic 740, we evaluate our deferred income taxes to determine if a valuation allowance is required. ASC Topic 740 requires that companies assess whether a valuation allowance should be established based on the consideration of all available evidence using a “more likely than not” standard, with significant weight being given to evidence that can be objectively verified. Since the company operates in multiple jurisdictions, we assess the need for a valuation allowance on a jurisdiction-by-jurisdiction basis, taking into account the effects of local tax law. Based on our assessment at August 2, 2015, we recorded a partial valuation allowance of \$926,000, of which \$561,000 pertained to certain U.S. state net operating loss carryforwards and credits and \$365,000 pertained to loss carryforwards associated with our Culp Europe operation located in Poland. Based on our assessment at August 3, 2014, we recorded a partial valuation allowance of \$1.1 million, of which \$666,000 pertained to certain U.S. state net operating loss carryforwards and credits and \$419,000 pertained to loss carryforwards associated with our Culp Europe operation located in Poland. Based on our assessment at May 3, 2015, we recorded a partial valuation allowance of \$922,000, of which \$561,000 pertained to certain U.S. state net operating loss carryforwards and credits and \$361,000 pertained to loss carryforwards associated with our Culp Europe operation located in Poland.

No valuation allowance was recorded against our net deferred tax assets associated with our operations located in China and Canada at August 2, 2015, August 3, 2014, and May 3, 2015, respectively.

The recorded valuation allowance of \$926,000 at August 2, 2015, has no effect on our operations, loan covenant compliance, or the possible realization of certain U.S. state net operating loss carryforwards and credits and our loss carryforwards associated with our Culp Europe operation located in Poland. If it is determined that it is more-likely-than-not that we will realize any of these deferred tax assets, an income tax benefit will be recognized at that time.

Undistributed Earnings

In accordance with ASC Topic 740, we assess whether the undistributed earnings from our foreign subsidiaries will be reinvested indefinitely or eventually distributed to our U.S. parent company. ASC Topic 740 requires that a deferred tax liability should be recorded for undistributed earnings from foreign subsidiaries that will not be reinvested indefinitely. Based on our assessment as of August 2, 2015, it is our intention not to permanently invest our undistributed earnings from our foreign subsidiaries. Also, we assess the recognition of U.S. foreign income tax credits associated with foreign withholding and income tax payments and whether it is more-likely-than-not that our foreign income tax credits will not be realized. If it is determined that any foreign income tax credits need to be recognized or it is more-likely-than-not our foreign income tax credits will not be realized, an adjustment to our provision for income taxes will be recognized at that time.

At August 2, 2015, the net deferred tax liability associated with our undistributed earnings from our foreign subsidiaries totaled \$2.0 million, which included U.S. income and foreign withholding taxes totaling \$33.8 million, offset by U.S. foreign income tax credits of \$31.8 million. At August 3, 2014, the net deferred tax liability associated with our undistributed earnings from our foreign subsidiaries totaled \$2.1 million, which included U.S. income and foreign withholding taxes totaling \$29.4 million, offset by U.S. foreign income tax credits of \$27.3 million. At May 3, 2015, the net deferred tax liability associated with our undistributed earnings from our foreign subsidiaries totaled \$1.7 million, which included U.S. income and foreign withholding taxes totaling \$32.4 million, offset by U.S. foreign income tax credits of \$30.7 million.

We had accumulated earnings from our foreign subsidiaries totaling \$88.6 million, \$75.8 million, and \$85.2 million at August 2, 2015, August 3, 2014, and May 3, 2015, respectively.

Overall

At August 2, 2015, the current deferred tax asset of \$7.0 million represents \$6.5 million and \$502,000 from our operations located in the U.S. and China, respectively. At August 2, 2015, the non-current deferred tax asset of \$412,000 pertains to our operations located in China. At August 2, 2015, the non-current deferred tax liability of \$4.1 million represents \$3.0 million and \$1.1 million from our operations located in the U.S. and Canada, respectively.

At August 3, 2014, the current deferred tax asset of \$6.2 million represents \$5.8 million and \$405,000 from our operations located in the U.S. and China, respectively. At August 3, 2014, the non-current deferred tax asset of \$973,000 represents \$440,000 and \$533,000 from our operations located in the U.S. and China, respectively. At August 3, 2014, the non-current deferred tax liability of \$1.0 million pertains to our operations located in Canada.

At May 3, 2015, the current deferred tax asset of \$4.8 million represents \$4.4 million and \$421,000 from our operations located in the U.S. and China, respectively. At May 3, 2015, the non-current deferred tax asset of \$447,000 pertained to our operations located in China. At May 3, 2015, the non-current deferred tax liability of \$1.1 million represents \$896,000 and \$154,000 from our operations located in Canada and the U.S., respectively.

Uncertainty In Income Taxes

At August 2, 2015, we had a \$14.2 million total gross unrecognized tax benefit, of which \$3.6 million represents the amount of gross unrecognized tax benefits that, if recognized, would favorably affect the income tax rate in future periods. At August 3, 2014, we had a \$14.0 million total gross unrecognized tax benefit, of which \$4.0 million represents the amount of gross unrecognized tax benefits that, if recognized, would favorably affect the income tax rate in future periods. At May 3, 2015, we had a \$14.1 million total gross unrecognized tax benefit, of which \$3.8 million represents the amount of gross unrecognized tax benefits that, if recognized, would favorably affect the income tax rate in future periods.

At August 2, 2015, we had a \$14.2 million total gross unrecognized tax benefit, of which \$10.6 million and \$3.6 million were classified as net non-current deferred income taxes and income taxes payable – long-term, respectively, in the accompanying consolidated balance sheets. At August 3, 2014, we had a \$14.0 million total gross unrecognized tax benefit, of which \$10.0 million and \$4.0 million were classified as net non-current deferred income taxes and income taxes payable – long-term, respectively, in the accompanying consolidated balance sheets. At May 3, 2015, we had \$14.1 million of total gross unrecognized tax benefit, of which \$10.3 million and \$3.8 million were classified as net non-current deferred income taxes and income taxes payable – long-term, respectively, in the accompanying consolidated balance sheets.

We estimate that the amount of gross unrecognized tax benefits will increase by approximately \$867,000 for fiscal 2016. This increase primarily relates to double taxation under applicable tax treaties with foreign tax jurisdictions.

Income Taxes Paid

We reported income tax expense of \$2.7 million and \$2.1 million in the first quarter of fiscal 2016 and fiscal 2015, respectively. Currently, we are not paying income taxes in the United States, nor do we expect to for a few more years, due to our loss carryforwards that totaled \$32.2 million at May 3, 2015. However, we did have income tax payments of \$900,000 and \$959,000 in the first quarter of 2016 and fiscal 2015, respectively. Our income tax payments are associated with our subsidiaries located in China and Canada.

Liquidity and Capital Resources

Liquidity

Currently, our sources of liquidity include cash and cash equivalents, short-term investments, cash flow from operations, and amounts available under our unsecured revolving credit lines. These sources have been adequate for day-to-day operations, capital expenditures, debt payments, common stock repurchases, and dividend payments. We believe our present cash and cash equivalents and short-term investment balance of \$32.3 million at August 2, 2015, cash flow from operations, and the current availability under our unsecured revolving credit lines will be sufficient to fund our foreseeable business needs and contractual obligations.

At August 2, 2015, our cash and cash equivalents and short-term investments totaled \$32.3 million and exceeded our total debt (all of which is classified in current maturities of long-term debt) of \$2.2 million. Our total debt of \$2.2 million represented our last annual principal payment on our unsecured term notes and was paid after the end of our first quarter on August 11, 2015. Currently, we do not have any long-term debt or balances due on our revolving credit lines.

We currently hold cash and cash equivalents and short-term investments in foreign jurisdictions to support the operational requirements of our foreign operations located in Canada and China and for U.S. and foreign income tax planning purposes.

A summary of our cash and cash equivalents and short-term investments by geographic area follows:

<i>(dollars in thousands)</i>	<i>August 2, 2015</i>	<i>May 3, 2015</i>
China	\$ 12,019	14,630
Canada	8,531	12,511
Cayman Islands	8,591	8,591
United States	3,128	3,977
Poland	-	20
	<u>\$ 32,269</u>	<u>39,729</u>

As of the end of the first quarter of fiscal 2016, our cash and cash equivalents and short-term investments decreased from \$39.7 million at May 3, 2015. This decrease was primarily due to dividend payments of \$5.7 million, capital expenditures associated with our mattress fabric segment of \$3.3 million, and \$478,000 on long-term investment purchases associated with our Rabbi Trust that is partially funding our deferred compensation plan. This spending was partially offset by net cash provided by operating activities of \$1.1 million.

Our net cash provided by operating activities was \$1.1 million for the first quarter of fiscal 2016, a decrease of \$3.0 million, compared with \$4.1 million for the first quarter of fiscal 2015. This decrease reflects an increase in inventory purchases due to increased business volume and expected demand trends and higher bonus payments related to the prior year that reflected stronger financial results in relation to pre-established performance targets for fiscal 2015 compared to fiscal 2014. This spending was partially offset by cash flow from earnings and improved cash collections from customers in the first quarter of fiscal 2016 compared to first quarter of fiscal 2015.

Our cash and cash equivalents and short-term investment balance may be adversely affected by factors beyond our control, such as weakening industry demand and delays in receipt of payment on accounts receivable.

Dividend Program

On June 18, 2015, we announced that our board of directors approved the payment of a special cash dividend of \$0.40 per share and a regular cash dividend payment of \$0.06 per share. These dividends were paid on July 15, 2015, to shareholders of record as of July 1, 2015. During the first quarter of fiscal 2016, dividend payments totaled \$5.7 million, of which \$5.0 million represented a special cash dividend of \$0.40 per share, and \$740,000 represented the quarterly dividend payment of \$0.06 per share.

During the first quarter of fiscal 2015, dividend payments totaled \$5.5 million, of which \$4.9 million represented a special cash dividend payment of \$0.40 per share, and \$611,000 represented the quarterly dividend payment of \$0.05 per share.

On September 2, 2015, we announced that our board of directors approved the payment of a quarterly cash dividend of \$0.06 per share. The payment will be made on October 15, 2015 to shareholders of record as of October 1, 2015.

Future dividend payments are subject to board approval and may be adjusted at the board's discretion as business needs or market conditions change.

Common Stock Repurchase Program

On February 25, 2014, we announced that our board of directors approved an authorization for us to acquire up to \$5.0 million of our common stock. Under the common stock repurchase program, shares may be purchased from time to time in open market transactions, block trades, through plans established under the Securities Exchange Act Rule 10b5-1, or otherwise. The amount of shares purchased and the timing of such purchases will be based on working capital requirements, market and general business conditions, and other factors including alternative investment opportunities.

No shares were purchased during the first quarter of fiscal 2016.

At August 2, 2015, we had \$4.3 million available for additional repurchases of our common stock.

Working Capital

Accounts receivable at August 2, 2015, were \$25.7 million, an increase of \$1.5 million, or 6%, compared with \$24.2 million at August 3, 2014. This increase primarily reflects an increase in net sales of 5% in the first quarter of fiscal 2016 compared with the first quarter of fiscal 2015. Days' sales outstanding were 29 days for the first quarter of fiscal 2016 compared with 31 days for the first quarter of fiscal 2015.

Inventories as of August 2, 2015, were \$46.5 million, an increase of \$4.8 million, or 12%, compared with \$41.7 million at August 3, 2014. This increase represents increased business volume and expected demand trends as of the end of the first quarter. Inventory turns were 5.6 for the first quarter of fiscal 2016 compared with 6.0 for the first quarter of fiscal 2015.

Accounts payable-trade as of August 2, 2015, were \$28.2 million, an increase of \$3.8 million, or 15%, compared with \$24.4 million at August 3, 2014. This increase primarily reflects the increase in inventory purchases noted above.

Operating working capital (comprised of accounts receivable and inventories, less accounts payable-trade and accounts payable-capital expenditures) was \$43.4 million at August 2, 2015, compared with \$41.3 million at August 3, 2014. Operating working capital turnover was 7.7 during the first quarter of fiscal 2016, compared with 7.1 during the first quarter of fiscal 2015.

Financing Arrangements

Unsecured Senior Term Notes

We entered into a note agreement dated August 11, 2008 that provided for the issuance of \$11.0 million of unsecured senior term notes with a fixed interest rate of 8.01% and a term of seven years. Principal payments of \$2.2 million per year are due on the notes beginning August 11, 2011. Any principal pre-payments would be assessed a penalty as defined in the agreement. The agreement contains customary financial and other covenants as defined in the agreement.

On August 11, 2015, we paid our one remaining annual payment of \$2.2 million.

Revolving Credit Agreement – United States

As of May 3, 2015, we had an unsecured credit agreement with Wells Fargo Bank, N.A. ("Wells Fargo") that provided for an unsecured revolving loan commitment of \$10.0 million to be used to finance working capital and general corporate purposes. The amount of borrowings that were outstanding under the credit agreement with Culp Europe at August 3, 2014, noted below decreased the \$10.0 million available. Interest is charged at a rate (applicable interest rate of 1.69%, 1.76%, and 1.78% at August 2, 2015, August 3, 2014, and May 3, 2015, respectively) equal to the one-month LIBOR rate plus a spread based on our ratio of debt to EBITDA as defined in the agreement. The Credit Agreement contained customary financial and other covenants as defined in the agreement and was set to expire on August 31, 2015.

Effective July 10, 2015, we amended the Credit Agreement to extend the expiration date to August 31, 2017, and maintain an annual capital expenditure limit of \$12 million.

At August 2, 2015 and May 3, 2015 there was a \$250,000 outstanding letter of credit (all of which related to workers compensation). At August 3, 2014, there was a \$195,000 outstanding letter of credit (all of which related to workers compensation). At August 2, 2015, August 3, 2014, and May 3, 2015, there were no borrowings outstanding under the credit agreement.

Revolving Credit Agreement – China

We have an unsecured credit agreement associated with our operations in China that provides for a line of credit of up to 40 million RMB (approximately \$6.4 million USD at August 2, 2015), expiring on February 9, 2016. This agreement has an interest rate determined by the Chinese government. There were no borrowings outstanding under the agreement as of August 2, 2015, August 3, 2014, and May 3, 2015.

Revolving Credit Agreement – Europe

At August 3, 2014, we had EURO denominated borrowings totaling €424,000 (\$569,000 USD) that incurred interest at the EURO LIBOR plus 2%.

In connection with the Wells Fargo credit agreement noted above, the outstanding borrowings totaling \$569,000 at August 3, 2014, decreased the \$10.0 million available under the credit agreement.

At August 2, 2015, no borrowings were outstanding under this agreement, as the outstanding balance was paid in full during the second quarter of fiscal 2015.

Overall

Our loan agreements require, among other things, that we maintain compliance with certain financial covenants. At August 2, 2015, the company was in compliance with these financial covenants.

Capital Expenditures and Depreciation

Capital expenditures on a cash basis were \$3.3 million for the first quarter of fiscal 2016 compared with \$2.3 million for the same period a year ago. Capital expenditures for the first quarter of fiscal 2016 and 2015 were primarily related to our mattress fabrics segment.

Depreciation expense was \$1.6 million for the first quarter of fiscal 2016 compared with \$1.4 million for the same period a year ago. Depreciation expense for the first quarter of fiscal 2016 and 2015 primarily related to the mattress fabrics segment.

For fiscal 2016, we are projecting capital expenditures for the company as a whole to be approximately \$8.0 million to \$9.0 million. Depreciation expense for the company as a whole is projected to be approximately \$7.0 million in fiscal 2016. The estimated capital expenditures and depreciation expense primarily relate to the mattress fabrics segment. These are management's current expectations only, and changes in our business needs could cause changes in plans for capital expenditures and expectations for related depreciation expense.

Critical Accounting Policies and Recent Accounting Developments

At August 2, 2015, there were no changes in the nature of our significant accounting policies or the application of those policies from those reported in our annual report on Form 10-K for the year ended May 3, 2015.

Refer to Note 2 located in the notes to the consolidated financial statements for recently adopted and issued accounting pronouncements since the filing of our Form 10-K for the year ended May 3, 2015.

Contractual Obligations

As of August 2, 2015, there were no significant or new contractual obligations from those reported in our annual report on Form 10-K for the year ended May 3, 2015.

Inflation

Any significant increase in our raw material costs, utility/energy costs and general economic inflation could have a material adverse impact on the company, because competitive conditions have limited our ability to pass significant operating increases on to customers.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

We are exposed to market risk from changes in interest rates on our revolving credit lines.

At August 2, 2015, our U.S. revolving credit agreement had an interest rate equal to the one-month LIBOR rate plus a spread based on our ratio of debt to EBITDA as defined in the agreement. Our revolving credit line associated with our China subsidiaries bears interest at a rate determined by the Chinese government. Our revolving credit line associated with our operation located in Poland bears interest at the EURO LIBOR plus 2%. At August 2, 2015, there were no borrowings outstanding under any of our revolving credit lines.

Currently, we are not exposed to market risk from changes in interest rates on long-term debt. Our unsecured term notes that incurred interest at a fixed rate of 8.01% were paid in full on August 11, 2015.

We are exposed to market risk from changes in the value of foreign currencies for our subsidiaries domiciled in Canada and China. We try to maintain a natural hedge by keeping a balance of our assets and liabilities denominated in the local currency of our subsidiaries domiciled in Canada and Poland, although there is no assurance that we will be able to continually maintain this natural hedge. Our foreign subsidiaries use the United States dollar as their functional currency. A substantial portion of the company's imports purchased outside the United States are denominated in U.S. dollars. A 10% change in the above exchange rates at August 2, 2015, would not have had a significant impact on our results of operations or financial position.

ITEM 4. CONTROLS AND PROCEDURES

We have conducted an evaluation of the effectiveness of our disclosure controls and procedures as of August 2, 2015, the end of the period covered by this report. This evaluation was conducted under the supervision and with the participation of management, including our Chief Executive Officer and Chief Financial Officer. Based upon that evaluation, we have concluded that these disclosure controls and procedures are effective to ensure that information required to be disclosed in the reports filed by us and submitted under the Securities Exchange Act of 1934, as amended (the "Exchange Act") is recorded, processed, summarized, and reported as and when required. Further, we concluded that our disclosure controls and procedures are effective to ensure that information required to be disclosed in reports filed by us under the Exchange Act is accumulated and communicated to management, including our Chief Executive Officer and Chief Financial Officer, in a manner to allow timely decisions regarding the required disclosures.

There has been no change in our internal control over financial reporting that occurred during the quarter ended August 2, 2015, that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

Part II – Other Information

Item 1. Legal Proceedings

There have not been any material changes to our legal proceedings during the three months ended August 2, 2015. Our legal proceedings are disclosed in the company's annual report on Form 10-K filed with the Securities and Exchange Commission on July 17, 2015 for the fiscal year ended May 3, 2015.

Item 1A. Risk Factors

There have not been any material changes to our risk factors during the three months ended August 2, 2015. Our risk factors are disclosed in the company's annual report on Form 10-K filed with the Securities and Exchange Commission on July 17, 2015 for the fiscal year ended May 3, 2015.

RESTRICTED STOCK UNIT AGREEMENT

(_____ Division)

THIS RESTRICTED STOCK UNIT AGREEMENT (the “**Agreement**”), dated as of _____, is between **CULP, INC.**, a North Carolina corporation (the “**Corporation**”), and _____ (“**Recipient**”).

Background Statement

The Corporation desires to grant to Recipient Restricted Stock Units (the “**Units**”) pursuant to the Culp, Inc. 2015 Equity Incentive Plan (the “**Plan**”). Capitalized terms used but not defined in this Agreement shall have the meanings given to them in the Plan.

STATEMENT OF AGREEMENT

NOW, THEREFORE, the parties hereby agree as follows:

Section 1. Grant of Units. The Corporation hereby grants to Recipient _____ Units. Each Unit shall entitle Recipient to receive, upon vesting thereof in accordance with this Agreement and the Plan, up to two (2) shares of common stock, par value \$0.05 per share, of the Corporation (“**Common Stock**”). Except as permitted by the Plan, the Units may not be assigned, pledged, hypothecated or transferred in any manner. Recipient shall not have, with respect to any Units, any rights of a shareholder of the Corporation, including without limitation any right to vote as a shareholder of the Corporation or any right to receive distributions from the Corporation in respect of the Units.

Section 2. Vesting. Except as may otherwise be provided in the Plan or this Agreement, the Units shall vest in the amounts set forth below, depending upon the Cumulative Operating Income of the [**Corporation/Division**], as follows:

<u>Level</u>	<u>Cumulative Operating Income</u>	<u>Number of Shares Vested</u>
Below Target	Below \$ _____	0
Target	\$ _____	_____
Superior	\$ _____	_____
Maximum	\$ _____	_____

For Cumulative Operating Income amounts that are between the levels shown above, a pro rata number of shares will vest, calculated on a straight line basis.

Notwithstanding the foregoing, all unvested Units (and the number of shares at the Target level set forth above) shall immediately vest upon (a) the occurrence of a Change of Control or (b) the termination by the Corporation of the employment of Recipient without Cause or by reason of the death or Disability of Recipient.

Section 3. Definitions. For purposes of this Agreement, the following terms shall have the meanings indicated below:

“**Cause**” shall mean (i) the commission by Recipient of a felony (or crime involving moral turpitude); (ii) theft, conversion, embezzlement or misappropriation by Recipient of funds or other assets of the Corporation or its Subsidiaries or any other act of fraud with respect to the Corporation or its Subsidiaries (including without limitation the acceptance of bribes or kickbacks or other acts of self dealing); (iii) intentional, grossly negligent or unlawful misconduct by Recipient that causes significant harm to the Corporation or its Subsidiaries; or (iv) repeated instances of intoxication with alcohol or drugs while conducting business during regular business hours.

“**Change of Control**” shall have the meaning given to such term in the Plan. In addition, for an award that vests according to Cumulative Operating Income of a Division, “**Change of Control**” shall be deemed to have occurred upon consummation of a sale of all or substantially all of the assets of the Division by the Corporation to an unaffiliated third party.

“**Cumulative Operating Income**” shall mean the total Operating Income of the [Corporation/Division], excluding extraordinary and non-recurring items including restructuring and related charges, goodwill or fixed asset impairment charges, prepayment fees on debt, other extraordinary charges or credits, and the effects of acquisitions, for the three fiscal years beginning _____ and ending _____.

“**Disability**” shall have the meaning given to such term in the primary disability benefit plan of the Corporation in which Recipient participates. In the absence of any such plan, “**Disability**” shall mean any physical or mental impairment that renders Recipient unable to perform the essential functions of his job with the Corporation and its Subsidiaries for a period of at least 120 days, either with or without reasonable accommodation. At the Corporation’s request, Recipient shall submit to an examination by a duly licensed physician who is mutually acceptable to the Corporation and Recipient for the purpose of ascertaining the existence of a Disability, and shall authorize the physician to release the results of Recipient’s examination to the Corporation.

[“**Division**” shall mean the Corporation’s _____ division.]

“**Operating Income**” shall mean operating income as calculated and disclosed on the Corporation’s financial statements for the fiscal years in question.

Section 4. Settlement.

(a) As soon as reasonably practicable following a determination by the Corporation that all or part of the Units have vested pursuant to the terms of this Agreement, the Corporation shall issue as provided in 4(b) below, shares of Common Stock with respect to all such Units that have vested. Such shares of Common Stock shall not be treated as issued and outstanding until such shares have been issued by the Corporation in accordance with all applicable laws and the Corporation’s bylaws and articles of incorporation. Any certificate(s) evidencing shares of Common Stock shall bear such legends as the Corporation shall determine to be necessary to comply with all laws, including all applicable federal and state securities laws. All such shares of Common Stock issued pursuant to this Agreement shall be fully paid and nonassessable.

(b) Such shares shall be issued as follows:

(i) _____% of such shares (rounded to the nearest whole share) shall be issued directly to the Recipient;
and

(ii) _____% of such shares (rounded to the nearest whole share) to Recipient's Account under the Culp, Inc. Deferred Compensation Plan for Certain Key Employees ("Deferred Compensation Plan"), to be held and administered in accordance with the terms and conditions of the Deferred Compensation Plan and such other terms and conditions as the Corporation may establish in order to comply with legal requirements or otherwise. **Recipient understands and agrees that Recipient must also enter this election in the enrollment website for the Deferred Compensation Plan, in accordance with the terms of such plan. If such election is not so entered by Recipient within 30 days from the date of this Agreement, the deferral election in this subparagraph (ii) will be null and void, and 100% of the shares of Common Stock to be distributed hereunder will be issued directly to Recipient upon vesting under subparagraph (i) above, notwithstanding the percentage shown in subparagraph (i).**

Section 5. Forfeiture. All Units that do not vest pursuant to **Section 2** shall automatically be cancelled and forfeited by Recipient effective as of the earlier to occur of (a) the first day of the Corporation's _____ fiscal year (to the extent that Cumulative Operating Income for the **[Corporation/Division]** is not sufficient to cause such Units to vest pursuant to the terms of this Agreement), (b) the termination by Recipient of his employment with the Corporation or its Subsidiaries for any reason or (c) the termination by the Corporation of Recipient's employment with the Corporation or its Subsidiaries for Cause (each such event being referred to herein as a "**Forfeiture Event**"). Upon the occurrence of a Forfeiture Event, all unvested Units shall automatically, without further action by the Corporation or Recipient, be cancelled and forfeited.

Section 6. Tax Matters.

(a) Recipient shall promptly pay to the Corporation all federal, state and local income, social security and payroll taxes of any kind required by law to be withheld with respect to the vesting of any Units and the issuance of shares of Common Stock in respect thereof. Subject to the approval of the Committee, Recipient may elect to satisfy this obligation by having the Corporation withhold shares of Common Stock that would otherwise be issued to Recipient with respect to any Units that have vested, which shares of Common Stock shall have a Fair Market Value (as of the date that the amount of the withholding requirement is to be determined) equal to the amount of such withholding requirement. If Recipient fails to make such payments as required (whether in cash or having shares of Common Stock withheld), the Corporation shall, to the extent permitted by law, have the right to deduct from any payment of any kind otherwise due to Recipient all federal, state and local income, social security and payroll taxes of any kind required by law to be withheld with respect to the vesting of Units and the issuance of shares of Common Stock in respect thereof.

(b) Notwithstanding anything in this Agreement to the contrary, if a Change of Control occurs and if Recipient is entitled under any agreement or arrangement (including, without limitation, this Agreement) to receive compensation that would constitute a parachute payment (including, without limitation, the vesting of any rights) within the meaning of Section 280G of the Internal Revenue Code of 1986, as amended (the “Code”) but for the operation of this sentence, then the amount of all such payments shall be reduced, as determined by the Corporation, to the extent necessary to cause the aggregate present value of all payments in the nature of compensation to Recipient that are contingent on a change in the ownership or effective control of the Corporation, or in the ownership of a substantial portion of the assets of the Corporation, not to exceed 2.99 times Recipient’s “base amount,” all within the meaning of Section 280G of the Code and the regulations promulgated thereunder. The parties intend for the immediately preceding sentence to be interpreted and applied so as to prevent Recipient from receiving, with respect to a Change of Control, an excess parachute payment within the meaning of Section 280G of the Code.

Section 7. Clawback. If the Corporation’s reported financial or operating results become subject to a material negative restatement, the Compensation Committee (the “Committee”) of the Corporation’s board of directors may require the Recipient to pay to the Corporation an amount corresponding to each award to the Recipient under this Agreement, or otherwise return such Units or Common Stock, that the Committee determines would not have been vested or paid if the Corporation’s results as originally published had been equal to the Corporation’s results as subsequently restated; provided that any requirement or claim under this Section must be made, if at all, within five years after the date the amount claimed was originally vested or paid, whichever is later.

In the alternative, the Committee may require Recipient to repay or return compensation awarded hereunder pursuant to such rules as may be adopted from time to time pursuant to Section 954 of the Dodd-Frank Wall Street Reform and Consumer Protection Act, to the extent applicable. By acceptance of any award or Units hereunder, Recipient expressly acknowledges and agrees that any and all Units or Common Stock, as well as the equivalent cash value thereof with respect to any and all such Units or Common Stock, that have become vested, exercised, free of restriction or otherwise released to and/or monetized by or for the benefit of the Recipient or any transferee or assignee thereof (collectively, the “Award-Equivalent Value”), are and will be fully subject to the terms of any policy regarding repayment, recoupment or clawback of compensation now or hereafter adopted by the Corporation in response to the requirements of the Dodd-Frank Wall Street Reform and Consumer Protection Act, rulemaking of the Securities and Exchange Commission or otherwise. Recipient acknowledges and agrees that any such policy will apply to any and all Units or Common Stock, and Award-Equivalent Value in accordance with its terms, whether retroactively or prospectively, and agrees to cooperate fully with the Corporation to facilitate the recovery of any Units or Common Stock and/or Award-Equivalent Value that the Committee determines in its sole discretion is required to be recovered pursuant to the terms of such policy.

The obligations of Recipient to make payments or return Common Stock under this Section are independent of any involvement by such Recipient in events that led to the restatement. The provisions of this Section are in addition to, not in lieu of, any remedies that the Corporation may have against any persons whose misconduct caused or contributed to a need to restate the Corporation's reported results.

Section 8. Miscellaneous.

(a) **Governing Law.** This Agreement shall be construed, administered and governed in all respects under and by the applicable internal laws of the State of North Carolina, without giving effect to the principles of conflicts of laws thereof.

(b) **Entire Agreement; Amendment and Waiver.** This Agreement and the Units granted hereunder shall be subject to the terms of the Plan, which hereby is incorporated into this Agreement as though set forth in full herein. Recipient hereby acknowledges receipt of a copy of the Plan. This Agreement and the Plan reflect the entire agreement between the parties hereto and supersede any prior or contemporaneous written or oral understanding or agreement regarding the subject matter hereof. This Agreement may not be modified, amended, supplemented or waived except by a writing signed by the parties hereto, and such writing must refer specifically to this Agreement.

(c) **Assignment; Binding Effect.** This Agreement, as amended from time to time, shall be binding upon, inure to the benefit of and be enforceable by the heirs, successors and assigns of the parties hereto; provided, however, that this provision shall not permit any assignment in contravention of the terms contained elsewhere herein.

(d) **No Right to Employment.** Nothing in this Agreement shall confer on Recipient any right to continue in the employ of the Corporation or any of its Subsidiaries.

(e) **Counterparts.** This Agreement may be executed in one or more counterparts, each of which shall be deemed an original, but all of which together shall constitute one and the same instrument. Delivery of an executed counterpart of this Agreement by facsimile or other electronic device shall be equally as effective as delivery of an original executed counterpart of this Agreement. Any party delivering an executed counterpart of this Agreement by facsimile or other electronic device shall also deliver an original executed counterpart of this Agreement, but the failure to deliver an original executed counterpart of this Agreement shall not affect the validity, enforceability and binding effect of this Agreement.

(f) **Notices.** Any notice hereunder to the Corporation shall be addressed to the Corporation's principal executive office, Attention: Compensation Committee, and any notice hereunder to Recipient shall be addressed to Recipient at his last address in the records of the Corporation, subject to the right of either party to designate at any time hereafter in writing a different address. Any notice shall be deemed to have been given when delivered personally, one (1) day after dispatch if sent by reputable overnight courier, fees prepaid, or three (3) days following mailing if sent by registered mail, return receipt requested, postage prepaid and addressed as set forth above.

(g) **Effectiveness.** This agreement and the award of compensation and shares provided for hereunder are contingent upon the approval of the Plan by the shareholders of the Corporation at the Corporation's annual meeting of shareholders to be held September 16, 2015. If not so approved, this agreement and the Units granted hereunder shall be null and void.
